News of the Town

A NEW NOTARY.—A notarial commission was issued to J. B. Alexander yesterday.

CONTRACT TO LET.—Bids on the new Odd Fellows' hall in Tempe will be let in a few days.

WHOLESALE TEA AND COFFEE.—A wholesale tea and coffee house is to be established in this city in a few days.

WAITING TELEGRAMS.—The Western Union has undelivered telegrams for George H. Johnston, Grace Leavitt and J. S. Wallace.

THE BIG BUG ROAD.—Earl H. Parker has recently returned from work on the Big Bug road. He says the grading contract will be completed in about three weeks.

A NEW RESIDENCE.—Ground was broken yesterday by C. Campbell, the owner, on North Third avenue, in Bennett's addition, for a twelve-room two-story brick residence, to be thoroughly modern throughout.

GLENDALE IMPROVEMENT.—The contract on the brick and stone work on Bartlett's handsome new house in Glendale was awarded yesterday to C. W. Hunter, who also secured a similar contract on Dr. Goodrich's new building.

DIED AT THE HOSPITAL.—George Armite, about 65 years old, died yesterday at the county hospital. His body is being held, pending more information regarding his relatives. He has two brothers, it is stated, whose address is not known, who are well-to-do bankers.

THE NEPHI SCHOOL HOUSE.—Work on the foundation of the new school house in the Nephi district, near Mesa City, was commenced yesterday and will be finished within thirty days. The cost of the structure, plans for which were made by Architect Gregg, will be about \$1,500.

AN IDLE FOUNTAIN.—The drinking fountain on Washington street in front of the court house is not in working order. The attention of the supervisors is called to this public inconvenience to man and beast. The idle fountain is ornamental, but is much more beautiful when it is spouting water.

COL. MCCORD'S REGIMENT.—A telegram received at The Republican office yesterday from Lieutenant F. W. Hill at Whipple barracks, says that Captain Russell has been promoted to major to fill the vacancy caused by the appointment of Major Mitchell to be lieutenant-colonel. The regiment will leave for Lexington, Ky., today via Ash Fork.

TWO SUITS.—Two suits were filed in district court yesterday. The first was by Robert M. Bond vs. C. F. Ainsworth, to quiet title to lots 8, 10 and 12, in block 45, city of Phoenix. The defendant's adverse claim rests on a tax deed. The other suit was by ex-Governor Wolfley against W. T. and C. D. Brown to recover \$4,628, the value of a lot of mining machinery alleged to have been improperly seized.

JAMES TRICE DEAD.—James S. Trice, 28 years old, died yesterday morning at Mesa City of a complication of lung trouble and dropsy. Undertaker Bradley brought the remains to Phoenix. Funeral services will be held at the undertaking rooms at 4 o'clock this afternoon and will be conducted by the Rev. Dr. Lewis Halsey, pastor of the First Baptist church. The deceased leaves a wife and little boy. At the time of his death he was in charge of a bicycle store established at Mesa City by Pinney & Robinson and has lived in the valley for about two years.

DEMOCRATIC HEADQUARTERS.—The headquarters of the territorial democratic central committee were opened yesterday in room 17 of the Ford hotel. The rush of Wilson adherents to the scene was conspicuous for its absence. Even the chairman was absent, but the presence of the Solomonville Bulletin and the Prescott Courier on the table suggested that he might be in the near vicinity. The fact that there was an ink stand and a blotter on the table as well as the aforesaid publications added force to the suggestion. It is expected that before the campaign closes the hall carpet and stairs will be much worn by the tread of the faithful.

MISS SHERITT'S FUNERAL.—The funeral of Miss Elizabeth Sheritt took place yesterday afternoon from the residence of Mr. and Mrs. T. J. Barkley. The services were conducted by Rev. E. A. Penick and were attended by a large circle of mourning friends. The deceased was of such a lovable character that all who knew her and her acquaintance was wide, became mourners. The burial was directed by W. A. Davis. The pall bearers were E. B. Sinclair, J. E. Glanville, Herbert Langhin, Thomas J. Prescott, Dr. W. G. Lewis and Dr. William Duffield. The flowers for the grave were conveyed to the cemetery in a separate carriage. The decorating committee consisted of Misses Laura King, Marguerite Williams, Mattie Crews, Kate Christy and Laura Dobbis.

A VICTIM OF THE WAR.—J. A. Barrow, lately in charge of the index reference department of the Chicago public library, is stopping at the Ford and will remain in Phoenix this winter. Although he was not connected in any way with the war with Spain, Mr. Barrow nevertheless attributes his present ill health to that sanguinary conflict. At the beginning of hostilities and, in fact, immediately after the blowing up of the Maine, the newspaper readers of Chicago lit-

erally raided Mr. Barrow's department and not succeeding in always finding what they wanted in the way of illustrations and articles, it became the duty of Mr. Barrow to hunt through such publications and books as had not been indexed. Long hours and continuous application to their work and Mr. Barrow is now in Arizona endeavoring to recover lost health.

BETTER CALL TODAY.—Anybody who may entertain a different opinion from the city board of equalization regarding the valuation of property for taxable purposes had better call today and have it out with the board. Otherwise the valuation previously determined upon will be made permanent.

LIKE A PHOENIX.—E. A. Tovea returned yesterday from Jerome, which he says is as lively as it was before the great fire. A good deal of the business is being conducted in temporary structures and tents, but most of the owners of business property there are preparing to rebuild at once and many of them have already begun. Mr. Tovea will purchase Mund's meat market there.

GLENDALE REPUBLICANS.—The Young Men's Republican club and other republicans, altogether about 100 strong, went to Glendale last night to assist in organizing a club there. A special train left the S. P. & F. depot at 7 o'clock and returned about 11. It carried an enthusiastic crowd going out and a satisfied one coming back. The Glendale club got off on the right foot and is expected to prove a leaven in that enterprising community.

A SUGGESTIVE SIGN.—A Phoenix lady who was stopping at a somewhat unsatisfactory hotel in Los Angeles, one day noticed an announcement on the wall informing the traveling public that trunks would be moved to any part of the city for 25 cents. Turning to a guest she remarked: "The proprietor had better move that notice if he wants to keep his guests, for if they discover how cheaply they can be moved he will not have enough remaining to use up the summer's stock of stationery."

STAR ROUTE.—What is known as the Travis mail route from Castle Creek hot springs to Prescott has been broken up into shorter routes, for which bids are now being received. One will run from hot springs to Kirkland with a six days a week service. Another route will run from Kirkland to Waggoner with a six days a week service. A contract will also be let for the route from Springville to Greer, with service similar to the foregoing. These contracts will begin on November 15 of this year and end in 1902.

GOT SIXTY DAYS.—Two Mexican Indians who were arrested a few days ago on a charge of attempting a criminal assault on Refugio Orozco, were in Justice Johnston's court yesterday. These are the prisoners who had to be beaten into insensibility before they could be arrested. They recovered consciousness when they arrived at the jail and there was another fight with them. The felony charge against them was dismissed and they were tried and convicted of assault. Each was sentenced to sixty days in the county jail.

THE NEW TERRITORY.—WHI Orme yesterday received a letter from his brother Shull, who is employed on the Sandwich islands as a "pilaka" or assistant boss on a big sugar plantation. He believes that annexation will be a great thing for the islands, but he thinks that it will close many avenues against the investors from abroad of moderate means. Every thing will be taken up by heavy capitalists now that a stability of government is assured. He writes that the islands hold out no inducement to laborers. Profitable employment is hard to get. Though he has a good job he had to wait six weeks for it.

HOLOCAUST OF WILDCATS.—Farmers living near Tempe are worried about wildcats, which are living off the chicken roasts. The wildcats live in the chapparal in great numbers and have grown so bold that they invade the chicken yards in the day time. A unique and comprehensive scheme for their destruction has been devised. The farmers are going to cover the chapparal for about an acre with a heavy thatch of straw. Then they will organize a wildcat drive and concentrate the cats, which will naturally take refuge under the straw thatch. The straw will be set on fire and the cats will be made to contribute to the flame and smoke. There is no doubt about the success of the project if the wildcats will faithfully carry out their end of the programme.

WILL LEAD IN COPPER.—Mr. Jonas H. Brooks, cashier of the Albany City Bank of Albany, N. Y., spent yesterday in the city. Mr. Brooks, who is interested in the copper industry, is making a tour of the great copper producing regions, including Michigan, Montana and Arizona. He said yesterday that the day was not far distant when Arizona would head the country in the production of copper. Mr. Brooks was agreeably surprised by what he saw in the valley. "I had no idea you had such a vast area of cultivated land," he said to a Republican representative. "From what I have seen in the short time I have been here I am convinced that Phoenix has a magnificent future, and that Arizona will become a magnificent state." Mr. Brooks started last night for Globe, where he will inspect several promising properties.

WHY JEROME BURNED.—Under the head of "The Wickedest Town in the Southwest" the New York Tribune publishes the following highly colored dispatch from Montauk Point: "When the members of Troop A, the Arizona troop of the 'Rough Riders,' read yesterday the announcement that Jerome, Arizona, had been nearly swept away by fire and three lives lost they were greatly interested. Jerome has been nearly wiped out by fire seven or eight times. It is the popular belief in the west that these attacks by fire are a scourge to Jerome for being the wickedest town in the southwest. The town is built on the side of Mount Verde, which is composed of almost solid copper. W. A. Clark refused \$35,000,000 for the United Verde copper mine, which is said to be the richest mine in the world. There is enough copper in sight to keep 1,000 men employed for 100 years, and the gold taken from the copper pays all the

School Shoes.

In selecting our Line of SCHOOL SHOES we realize just how strong and well made a shoe must be to meet the popular demand. Our line is the strongest in every possible manner that we have ever offered, and our PRICES are the LOWEST we have ever made. You will do us a favor and yourself great benefit by deferring your purchases until you see our line of SCHOOL SHOES.

expenses of mining the copper. The 1,000 miners and their families constitute the population of the town, which is built of wood. As it has no fire protection, it all goes every time a fire starts at the down hill side of the town.

McKelligon's where you can get the finest hand-made sour mash, bourbon and Pennsylvania rye whiskies.

PERSONAL MENTION.

F. F. Daniels of Danville, Ind., is in Phoenix.

Joseph Thalheimer is in Tucson, but will return tomorrow.

Mrs. Fred Dummel returned yesterday morning from the coast.

Mr. and Mrs. B. B. Lyons and daughter of Chicago are at the Ford.

M. D. Tahare and wife left over the M. & P. last evening for Los Angeles.

Mrs. Joseph Thalheimer and children returned yesterday morning from the coast.

N. D. Howe, representing a San Francisco harness and saddle house, is in Phoenix on business.

Hon. J. H. Carpenter, who has been in town since the Prescott convention, will return to Yuma tonight.

Mr. E. B. Gage of Prescott came in from the north last night accompanied by Miss Louie Gage of Tempe.

W. J. Dodge and wife of Madison, Kan., are stopping at the Commercial and will spend the winter here.

Rev. Norman Howard Bartlett and wife were in the city yesterday on their way to the M. E. conference at Tucson.

Martin Zick, representing a jewelry firm in New York city, spent yesterday in calling upon Phoenix business men.

Conductor Sam Harris of the M. & P. has resumed the run to Maricopa Junction after spending a summer's vacation on the coast.

W. W. Wilson, a Tucson architect who has just been in Jerome looking after the wants of his patrons, left for his home last evening.

Mr. and Mrs. William Prime, Master James Prime and Miss Julia Prime and maid, of Cleveland, Ohio, are stopping at the Ford and will remain here this winter.

Superintendent Porter of the M. & P. will arrive this morning from Los Angeles. He will be accompanied by Mrs. Porter, who has been visiting on the coast.

Mrs. C. H. Davidson has returned from a pleasant summer's visit to her parents in Plainfield, Ill., and in consequence Mr. Davidson is happy once more.

Miss Ella Franklin, who spent the hot weather at the seashore, returned yesterday morning and in a few days will take up the task of teaching the young ideas in the Buckeye school district.

Dr. J. C. Norton, territorial veterinary surgeon, has returned from his trip to Omaha, where he attended the sessions of the United States Veterinary Medical association. Although Dr. Norton has been a member of the association for a number of years past, this was the first opportunity he has ever had of participating in its deliberations. He was detained several days longer than he had anticipated on account of a short spell of sickness, which he feared would turn into appendicitis, but which happily proved less serious. Dr. Norton took the opportunity to pay a visit to Chicago and Kansas City, where he met other live stock sanitary authorities.

THE LADIES.

The pleasant effect and perfect safety with which ladies may use Syrup of Fig, under all conditions, makes it their favorite remedy. To get the true and genuine article, look for the name of the California Fig Syrup Co., printed near the bottom of the package. For sale by all druggists.

The Eye of the Public

Is the eye I want to catch in these advertisements. I'm doing it, too—this is shown by the number of the public who come to see me about their own individual eyes. I like to tell you what is good for them and what is bad for them. The eye is very interesting—that is probably why you are reading this ad. I always try to tell you something new about your eyes. A careful examination won't cost you anything, even if you don't buy glasses now. Maybe you will want to sometime.

TIMID ELEPHANTS.

Stories Spawning How Easily the Brutes Are Frightened.

An English writer of Indian experience declares that the vaunting of the intelligence of the elephant creates a false impression. Lik that of the horse, the intelligence of the elephant has curious limitations.

A few months ago the populace of a small town near Madras were frightened out of their wits by a runaway elephant, which broke from its mahout's control and ran through the town, smashing everything that lay in its path. It had been frightened into a state of insane alarm by the pattering of raindrops on its rider's umbrella.

A friend of the same writer once had a singular experience of a somewhat similar sort. When "out in the district" in Burma, he grew tired of riding on his elephant, which also carried his servants and baggage, and bought a pony in one of the villages. He was careful to make sure that the pony was not afraid of elephants, but it never occurred to him that the elephant might be afraid of ponies.

Early the next morning he sent his baggage and servants off on the elephant, with orders to halt for lunch at a village ten miles away, and when he

Lad finished some work, he followed on his pony. When a mile or so from the halting place he saw the elephant lurching along in advance and trotted on to hurry up the mahout. As he approached, the mahout, a Burman, began to gesticulate. The Englishman and his Burmese servants knew no Burmese, and the Burman knew no tongue but his own. He was much excited.

The Englishman guessed that something was amiss, and, breaking into a gallop to see what it might be, was astonished to see the elephant start off at a run. Three times the excited and angry mahout succeeded in stopping the beast after a run of a mile or so, and three times did the Englishman ride up to see what was the matter, only to observe with astonishment that the elephant rushed on each time.

Finally the despairing mahout steered the animal off the road into swampy ground, and thus, shaking off pursuit, plowed his way back on foot to the halting place, where he found an interpreter to explain that the elephant had been terrified by the approach of the pony.—Buffalo News.

Among the many mysteries of bird migration is the fact that over-sea journeys are generally conducted in the darkness and invariably against a head wind.
